Ürün Nr. 2474 Divizör Yatağı (Frensiz)

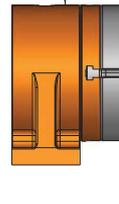

- Divizör yatağı, CNC makinelerinde kullanılan önemli bir bileşendir. Divizörler, iş parçalarını belirli açılarda döndürerek hassas işleme işlemlerini mümkün kılar. Divizör yatakları ise bu döner hareketin düzgün ve stabil bir şekilde gerçekleşmesini sağlar.

Product Nr. 2474 Bearing Of Indexing Head (Unclamped)

- Bearing of Indexing head is an important component used in CNC machines. The indexing head enables precision machining operations by rotating the workpieces at specific angles. Bearing of Indexing head ensure that this rotary movement is smooth and stable.
